

Ideation Phase

Define the Problem Statements

Date	28 January 2026
Team ID	LTVIP2026TMIDS86494
Project Name	plugging into the future: an exploration of electricity
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	A data analyst	A data analyst working on a Tableau project to study electricity consumption patterns using historical data.
I'm trying to	Analyze electricity consumption	Explore, analyze, and visualize electricity usage across different regions and years to understand overall consumption behavior.
but	The data is large and difficult to interpret	The dataset is large and complex, and meaningful insights are not easily visible through raw numbers alone.
because	Consumption patterns vary across regions	Electricity consumption varies by location and time, and without proper visual analysis, trends and comparisons are hard to identify.
Which makes me feel	The need for clear visualizations to understand	Confident that using Tableau dashboards will help transform raw data into clear insights for better analysis and decision-making.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A data analyst	Analyze electricity consumption patterns across regions and years	The data is large and difficult to interpret	Raw data does not clearly show trends or variations	The need for interactive visual dashboards
PS-2	A decision maker / policy analyst	Identify high and low electricity consumption areas	Comparisons across regions are time-consuming	Consumption varies significantly over time and location	Visualization is essential for better planning
